CalClean, Inc.
Noel Shenoi, President
1790 N. Case Street
Orange, CA 92865

As president of Restructure Petroleum Marketing Services of California (RPMS), it is with pleasure I am writing to show my gratitude for your services over the last ten years.

It has been a pleasure working with you, your staff, as well as the sub-contractor consultants on the many RPMS remediation projects (almost 40) throughout California. I have appreciated the level of professionalism everyone in your company has shown in dealing with the staff at our multiple locations. Your consistency in getting the projects to completion and case closure has been on point and many times ahead of schedule and budget.

You tasked our \$35 million in projects with ultimate professionalism. In addition, your company showed financial strengths, having worked through the difficult times with the SWRCB/USTCF when most of our sites were suspended from USTCF payments for almost two years.

I personally want to congratulate you on a job well done, I would highly recommend your services to any business looking to contract with CalClean, Inc. at any level.

Thank you.

Sincerely,

Janet S. Ceccarelli
President
